Subject: Microsoft Settlement

I fully support the current sttlement and believe that further litigations against Micosoft should be stopped. It is obvious that Microsoft s competitors Oracle and Sun System are doing everything they can to ruin the company. Our government should not be influenced by this. Enough already. A fair settlement was achieved. Federal government should discourage the remaining states from further litigation. Microsoft one of the most successfull American companies should be allowe to continue its efforts in innovation. Our fragile economy needs this and consumers are benefiting from innovation.
